

About the Guide

- This quick start guide is for reference only. Minor difference might be found in user interface.
- All the design and software here are subject to change without prior written notice.
- All trademarks and registered trademarks mentioned are the properties of their respective owners.
- Please visit our website or contact your local service engineer for more information.
- If there is any uncertainty or controversy, please refer to our final explanation.

Step 4

Wait for booting to be finished, and then the camera indicator flashes with green light.

Step 5

Do the following operations to finish adding camera.

- Note:**
- If you have more than one camera, do step 5 to add them one by one.
 - If the Wi-Fi network has changed or the indicator status goes wrong, reset the camera, and then do step 5 to add it again.

Adding Alarm Sensor

Note:

- The alarm sensor is not included by default; you need to purchase it separately if necessary.
- There are two ways to add alarm sensor.

Method 1

- Step 1** Press camera reset/pair button for 2 s to enter pairing mode, and then the green light flashes.
- Step 2** Press the pair button of alarm sensor and the indicator light will flash quickly and continuously.
- Step 3** The green light of camera will stop flashing if pairing succeeds; the red light will flash if pairing fails.

Method 2

Scan the QR code on the sensor with Imou App, and then follow the app guide to operate.

Installing Camera

Note: Make sure the mounting surface is strong enough to hold at least three times of the device weight.

- Step1** Drill screw holes on the mounting surface as the positioning map shows, and then put in the expansion bolts.
- Step2** Attach the mounting plate to the mounting surface with the self-tapping screws.
- Step3** Attach the camera to the mounting plate, power it up, and then adjust the lens to the ideal angle.

Operating With Imou App

Step 1

Scan the following QR code or search "Imou" in Google Play or App Store to download and install Imou App.

Note: If you have installed the App, update it to the latest version.

Step 2

Run Imou App, and then register an account for the first use.

Step 3

Connect the camera to power source with the power adapter.
